

Executive Director Decision

2026/005/R

of 3 July 2026

issuing the following:

Amendment 18 to Issue 2 of the Acceptable Means of Compliance and Guidance Material to Annex I (Part 21) to Commission Regulation (EU) No 748/2012]

‘AMC and GM to Part 21 — Issue 2, Amendment 18’

Amendment 10 to Issue 2 of the Acceptable Means of Compliance and Guidance Material to Annex I (Part-M) to Commission Regulation (EU) No 1321/2014]

‘AMC and GM to Part-M — Issue 2, Amendment 10’

Amendment 9 to Issue 2 of the Acceptable Means of Compliance and Guidance Material to Annex II (Part-145) to Commission Regulation (EU) No 1321/2014]

‘AMC and GM to Part-145 — Issue 2, Amendment 9’

Amendment 4 to Issue 1 of the Acceptable Means of Compliance and Guidance Material to Annex Vb (Part-ML) to Commission Regulation (EU) No 1321/2014]

‘AMC and GM to Part-ML — Issue 1, Amendment 4’

Amendment 6 to Issue 1 of the Acceptable Means of Compliance and Guidance Material to Annex Vc (Part-CAMO) to Commission Regulation (EU) No 1321/2014]

‘AMC and GM to Part-CAMO — Issue 1, Amendment 6’

Amendment 6 to Issue 1 of the Acceptable Means of Compliance and Guidance Material to Annex Vd (Part-CAO) to Commission Regulation (EU) No 1321/2014]

‘AMC and GM to Part-CAO — Issue 1, Amendment 6’

‘Airworthiness review process’

‘Import of aircraft from other regulatory systems, and review of Part 21 Subpart H’

‘Alignment of the IRs of Regulation (EU) 2018/1139 and the associated AMC and GM with Regulation (EU) No 376/2014 — Occurrence reporting’

— — —

THE EXECUTIVE DIRECTOR OF THE EUROPEAN UNION AVIATION SAFETY AGENCY (EASA),

Having regard to Regulation (EU) 2018/1139¹, and in particular Articles 76(3) and 104(3)(a) thereof,

Whereas:

- (1) Acceptable means of compliance (AMC) are non-binding standards issued by EASA, which are used by persons and organisations to demonstrate compliance with Regulation (EU) 2018/1139 and with the delegated and implementing acts adopted on the basis thereof.
- (2) Guidance material (GM) is non-binding material issued by EASA, which helps to illustrate the meaning of delegated or implementing acts, and which is used to support the interpretation of Regulation (EU) 2018/1139, of the delegated and implementing acts adopted on the basis thereof.
- (3) With Decision 2012/020/R of 30 October 2012, the Executive Director issued Acceptable Means of Compliance and Guidance Material to Part 21 of Regulation (EU) No 748/2012.
- (4) With Decision 2015/029/R of 17 December 2015, the Executive Director issued Acceptable Means of Compliance and Guidance Material to Part-M and Part-145 of Regulation (EU) No 1321/2014.
- (5) With Decision 2020/002/R of 13 March 2020, the Executive Director issued Acceptable Means of Compliance and Guidance Material to Part-ML, Part-CAMO and Part-CAO to Regulation (EU) No 1321/2014.
- (6) EASA shall, pursuant to Article 4(1)(a) of Regulation (EU) 2018/1139, reflect the state of the art and the best practices in the field of aviation and update its Decisions, taking into account worldwide aviation experience and scientific and technical progress in the respective fields.
- (7) Delegated Regulation (EU) 2026/56², adopted on 23 October 2025, amends Regulation (EU) No 748/2012³ as regards the process for issuing certificates of airworthiness and restricted certificates of airworthiness and Implementing Regulation (EU) 2026/100⁴, adopted on 15 January 2026, amends Regulations (EU) No 748/2012 and (EU) No 1321/2014⁵ as regards the airworthiness review process, the airworthiness certificate and occurrence reporting.

¹ Regulation (EU) 2018/1139 of the European Parliament and of the Council of 4 July 2018 on common rules in the field of civil aviation and establishing a European Union Aviation Safety Agency, and amending Regulations (EC) No 2111/2005, (EC) No 1008/2008, (EU) No 996/2010, (EU) No 376/2014 and Directives 2014/30/EU and 2014/53/EU of the European Parliament and of the Council, and repealing Regulations (EC) No 552/2004 and (EC) No 216/2008 of the European Parliament and of the Council and Council Regulation (EEC) No 3922/91 (OJ L 212, 22.8.2018, p. 1, ELI: <http://data.europa.eu/eli/reg/2018/1139/oj>).

² Commission Delegated Regulation (EU) 2026/56 of 23 October 2025 amending Regulation (EU) No 748/2012 as regards certificate of airworthiness and restricted certificate of airworthiness (OJ L, 2026/56, 19.1.2026, ELI: http://data.europa.eu/eli/reg_del/2026/56/oj).

³ Commission Regulation (EU) No 748/2012 of 3 August 2012 laying down implementing rules for the airworthiness and environmental certification of aircraft and related products, parts and appliances, as well as for the certification of design and production organisations (recast) (OJ L 224, 21.8.2012, p. 1 ELI: <http://data.europa.eu/eli/reg/2012/748/oj>).

⁴ Commission Implementing Regulation (EU) 2026/100 of 15 January 2026 amending Regulations (EU) No 748/2012 and (EU) No 1321/2014 as regards the airworthiness review process, the airworthiness certificate and occurrence reporting, and correcting Regulation (EU) No 1321/2014 (OJ L, 2026/100, 19.1.2026, ELI: http://data.europa.eu/eli/reg_impl/2026/100/oj).

⁵ Commission Regulation (EU) No 1321/2014 of 26 November 2014 on the continuing airworthiness of aircraft and aeronautical products, parts and appliances, and on the approval of organisations and personnel involved in these tasks (OJ L 362, 17.12.2014, p. 1, ELI: <http://data.europa.eu/eli/reg/2014/1321/oj>).

- (8) Those amendments aim to simplify and harmonise the rules set out in Regulations (EU) No 748/2012 and (EU) No 1321/2014, to make them clearer, avoid misinterpretations and enhance the alignment between the issuance of certificates of airworthiness and the airworthiness review process.
- (9) In particular, the amendments are intended to facilitate the transfer of aircraft between Member States and the import of aircraft into the Union. They simplify the process for issuing certificates of airworthiness in the cases in which aircraft are transferred between Member States, clarify the application requirements for used aircraft, and introduce an alternative mechanism based on investigation and evaluation activities for the cases in which, for aircraft imported from third countries, a statement reflecting the airworthiness status of the aircraft is unavailable and cannot be obtained.
- (10) With regard to the airworthiness review process, the amendments limit the need for recommendations to cases in which the involvement of the competent authority is necessary to ensure the expected safety level.
- (11) In addition, the amendments align the occurrence-reporting requirements applicable to organisations and individuals subject to Regulation (EU) No 1321/2014 with the principles established in Regulation (EU) No 376/2014, in order to support uniform implementation of reporting, analysis and follow-up obligations.
- (12) In view of the above, EASA determined the need to amend the AMC and GM to Regulation (EU) No 748/2012 and Regulation (EU) No 1321/2014 to support the implementation of the amendments introduced by Delegated Regulation (EU) 2026/56 and Implementing Regulation (EU) 2026/100.
- (13) The AMC and GM introduced by this Decision provide further guidance on the revised processes for the issuance of certificates of airworthiness, restricted certificates of airworthiness and airworthiness review certificates. They address, in particular, the import of aircraft into the Union, the development of evaluation programmes, the assessment of recommendations, the exchange of information between competent authorities and the alignment of occurrence-reporting obligations.
- (14) EASA, pursuant to Article 115(1)(c) of Regulation (EU) 2018/1139 and Article 6 of the EASA Rulemaking Procedure⁶, widely consulted the interested parties on the content of this Decision, and provided thereafter a written response to the comments received through the consultation⁷.
- (15) In addition, EASA, pursuant to Article 115(1)(c) of Regulation (EU) 2018/1139 and Article 6 of the EASA Rulemaking Procedure, consulted its advisory bodies (ABs) on the content of this Decision and considered the comments received,

⁶ EASA is bound to follow a structured rulemaking process as required by Article 115(1) of Regulation (EU) 2018/1139. Such a process has been adopted by the EASA Management Board (MB) and is referred to as the 'Rulemaking Procedure'. See MB Decision No 01-2022 of 2 May 2022 on the procedure to be applied by EASA for the issuing of opinions, certification specifications and other detailed specifications, acceptable means of compliance and guidance material ('Rulemaking Procedure'), and repealing Management Board Decision No 18-2015 ([EASA MB Decision No 01-2022 on the Rulemaking Procedure, repealing MB Decision 18-2015 \(by written procedure\) | EASA \(europa.eu\)](#)).

⁷ [Comment Response Documents | EASA \(europa.eu\)](#)

HAS DECIDED:

Article 1

Annex I to Decision 2012/020/R of the Executive Director of the Agency of 30 October 2012 is amended as laid down in Annex I to this Decision.

Article 2

Annex I (AMC & GM to Part-M) to Decision 2015/029/R of the Executive Director of the Agency of 17 December 2015 is amended as laid down in Annex II to this Decision.

Article 3

Annex II (AMC & GM to Part-145) to Decision 2015/029/R of the Executive Director of the Agency of 17 December 2015 is amended as laid down in Annex III to this Decision.

Article 4

Annex VI (AMC & GM to Part-ML) to Decision 2020/002/R of the Executive Director of the Agency of 13 March 2020 is amended as laid down in Annex IV to this Decision.

Article 5

Annex VII (AMC & GM to Part-CAMO) to Decision 2020/002/R of the Executive Director of the Agency of 13 March 2020 is amended as laid down in Annex V to this Decision.

Article 6

Annex VIII (AMC & GM to Part-CAO) to Decision 2020/002/R of the Executive Director of the Agency of 13 March 2020 is amended as laid down in Annex VI to this Decision.

Article 6

This Decision shall enter into force on the day following that of its publication in the Official Publication of EASA.

It shall apply as of 7 August 2026.

Cologne, 3 July 2026

For the European Union Aviation Safety Agency

The Executive Director

Florian GUILLERMET
